A message from our Director

Dear Beloved Car Owner,

We are thrilled to present our latest catalog. Whether you're a daily commuter, a busy parent, or the manager of a fleet of vehicles, we believe there's something we can offer to enhance everyone's driving experience.

In the 23+ years we have been in business, our goal has always been to address the unique needs of each individual customer, improving safety, increasing productivity, or simply having fun.

If you haven't had the chance to experience our services yet, consider this letter as an open invitation to discover the difference that CSO Radio can make for your life or your business.

We look forward to the opportunity of contributing to your unique driving experience!

Thank you for considering us as your trusted ally on the road.

Best regards,

Giovanni Piccirillo

Remote Starter

Warm Up Your "Get-Up-and-Go" with a Click!

- Less wear on the car.
- People who get up early don't have to wait for their car to warm up.
- Get into a warm car on cold days.
- Get into a cool car in the summer.

No more chilly commutes! Start your engine from the warmth of your home. With a simple click, embrace the cozy comfort of a pre-warmed car, leaving the frosty frustrations behind!

Overhead DVD Player

Long Family Road Trips Can be Enjoyable!

- Provides entertainment on long family trips.
- Keeps children busy allowing parents to enjoy uninterrupted conversations with each other.
- Creates a calm environment, making travel safer and more enjoyable.
- Adds value to the vehicle for potential buyers.

Say goodbye to fights, hello to tranquility! Our rear entertainment system transforms the back of your car into a quiet oasis. Enjoy peaceful family trips with happy, occupied kids – creating harmony and bliss on the road.

Start Your Car from Anywhere in the World

Complete Car Control at Your Fingertips.

- Enables remote start no matter how far you are from the vehicle.
- Allows the vehicle to be remotely locked, and unlocked from anywhere.
- Allows you to locate the exact location of the vehicle at any time.

Drone Mobile App

Complete control of your car from anywhere! Unlock, start, and even locate your vehicle with a mere touch on your smartphone.

Colorful Active LED Lighting

Techno Drive!

- Allows users to personalize their vehicle's interior ambiance with various color options.
- Creates a fun, vibrant and dynamic interior environment.
- Illuminates certain areas for improved visibility.

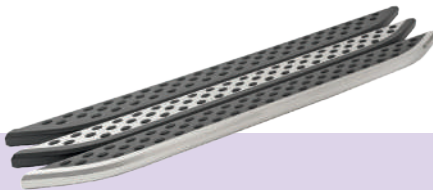

Banish the boredom from your car! Say goodbye to the ordinary and transform your car with LED lights. Move and groove to the beats of your favorite tunes, turning your drive into a rolling party. Good to impress anyone who loves all things hi-tech.

Running Boards

Step Up with Ease

- Facilitates getting in and out of a vehicle, especially for taller vehicles.
- Eliminates the awkwardness of stretching to get into a taller vehicle.
- Adds a stylish and functional element to the vehicle.

Say goodbye to the struggle of getting into a tall van. Our running boards provide a convenient step, making every entry a breeze. No more awkwardness and discomfort – just step in and enjoy a stylish and comfortable ride!

Off Road Siren

Sound the Call

- Provides a means to call attention to oneself if needed.
- Provides a clear and distinct audible signal in remote or off-road locations.
- Enhances safety by alerting others to the presence of emergency response vehicles.

Whether you're making noise off the beaten path for the thrill of it or you're emergency personnel responding to a crisis, our speaker ensures your safety call is heard loud and clear. Whatever the purpose, a loud siren speaker ensures you're heard when it matters most.

Hold the button
to speak

Powered Subwoofer

Let the beat take the wheel!

- Adds deep rich bass, greatly improving the sound quality of a vehicle's audio system.
- Creates an immersive and enjoyable listening environment.
- Allows users to adjust and tailor the audio to their preferences.

Experience the magic of music while adding the perfect groove to your daily commute. A concealed Powered Subwoofer adds just the right amount of toe-tapping bass to your tunes (with your left foot of course) to put you in a good mood. Turn your drive into a musical escape with a concealed Powered Subwoofer.

AMPLIFIED SUBWOOFER

....
It lets you pump out some great low frequency bass volume to enhance the party vibe making it a great addition to your car music audio system

Android Auto / Apple Car Play

Seamless Connectivity!

- Allows the use of Waze directly from the car's main display.
- Provides easy access to apps and music right from the car's touch screen.
- Enhances safety by allowing voice commands for hands-free calls, navigation and music.

Bring your car up to speed with the most advanced interface available. CarPlay brings the benefits of your smartphone's apps to the car's touchscreen. This cutting-edge feature, included in today's premium vehicles, transforms your driving experience, safely and seamlessly integrating Waze, WhatsApp, iTunes, and more into your car's touchscreen. Stay connected - stay up-to-date!

Rear Window LED Thank you Sign

Push to Thank

- Allows one to show appreciation to other drivers.
- Promotes positive driving behavior on the road.
- Brings a smile to other drivers and passengers.

Make the road a friendlier place by expressing gratitude to courteous drivers. At the touch of a button, light up a heartfelt "Thank You" for those who make your journey smoother. It's not just a drive; it's a vision of making the world a better place, one appreciation at a time.

Car Seat Cushions

Cushion Your Drive!

- Enhance your seating experience - especially on long journeys.
- Eases the discomfort of lower back pain, sciatica and other aches while sitting in the car.
- Massage and heated cushions are for anyone and make a great gift!

Sit in comfort - even in your car! Our collection of Car Seat Cushions is your solution to a pain-free and comfortable ride. Whether you ended up with a car that has uncomfortable seats, you have a back that acts up, need lumbar support or you just enjoy an extra comfortable ride. CSO Radio has a great selection of cushions to make everyone's ride a little easier and more comfortable.

Car Trash Bins

No More Apologies

- Improve your car's appearance and make a good impression!
- Stay productive and spend time in a neat and organized environment.
- Compact design, maximizes space efficiency.

Tired of finding coffee cups, tissues, and snack wrappers scattered across your car floor? CSO Radio offers a selection of smart solutions with our Car Trash Bins. Say goodbye to clutter and keep your car impeccably clean. Our floor bins provide easy access for front passengers, while the seat-back strapped bins are designed to involve even the little ones in maintaining a tidy car. From used coffee cups to half-eaten pretzel bags, our bins are the perfect receptacle for all your car trash, preventing littering and making car cleaning a breeze, more than just twice a year. Trust CSO Radio for a spotless and organized driving experience!

Back Up Camera

Navigate Safely with Eyes Behind You!

- Relieves the discomfort of backing up a large vehicle.
- Improves the safety of children nearby by providing a clear view of the rear surroundings.
- Helps prevent damage to the vehicle.
- Makes parking in tight spaces easier and safer.

No more blind spots, no more surprises! Install eyes in back of your ride. Get ready for a safer journey where obstacles and surprises are a thing of the past. Drive confidently with eyes behind you.

Front View Fish Eye Camera

See Clearly, Drive Confidently!

- Provides an unobstructed view of whatever is directly in front of the vehicle.
- Eases the discomfort of driving a large vehicle.
- Increases the safety of children around vehicles.

Say goodbye to the unease of not seeing directly in front of your vehicle, especially in busy areas like parking lots with children. This innovative camera ensures a clear line of sight, making every drive a confident one.

Back Up Alarm

Loud and Clear Safety Alert

- Alerts children and others to move out of the way.
- Reduces the risk of accidents, particularly in crowded or residential areas.
- Offers additional Peace of Mind when backing up.

When it comes to small children, safety is paramount. A back-up warning system adds an extra layer of protection by emitting a loud and clear alarm every time you back up. Drive with peace of mind, knowing you've taken every precaution to prioritize the safety of children around your vehicle.

Back Up Sensors

Sound the Alert: Navigate Safely with Audio Backup Warning!

- Alerts drivers to objects behind the vehicle, aiding in parking and reversing.
- Helps avoid collisions with unseen obstacles, even when visually distracted.
- Enhances overall safety during maneuvering.

"beep-beep-beep", means stop. Fewer accidental bumps even when you're not looking!

Blind Spot Sensors

Change Lanes Confidently!

- Provides the driver with confidence and reassurance when changing lanes or merging.
- Alerts drivers to potential hazards in blind spots reducing the risk of accidents.
- Peace of Mind: Offers an extra layer of safety for drivers and passengers.

No more uneasy lane-changes or risky maneuvers. Blind Spot Sensors act as an extra set of eyes, signaling when someone is in your blind spot and ensuring a safe lane change every time.

HID Headlights

Light Up The Road!

- Enhances visibility on dark roads, improving safety.
- Greatly reduces eye strain by providing a more natural and brighter light.
- Increases overall visibility to other drivers.

Bid farewell to dim drives and shadowy streets. With headlights that shine brighter than a supernova, your path is clear, your drive is confident, and every journey is a radiant adventure!

Ride N Remind Child Reminder System

Leave No One behind!!

- Gives peace of mind to parents who are worried that they or their spouse might one day forget a child.
- Enhances safety and security by greatly reducing the chance of forgetting anyone or anything in the back seat of a car.

Ride & Remind
BACKSEAT REMINDER SYSTEM

- *No batteries to change*
- *No wireless technology to fail*
- *Easily installed by any 12V professional*

Introducing the Ride & Remind System. This revolutionary system provides an audible reminder ensuring you never leave anyone or anything in the back seat. With the Ride N Remind system, safety and peace-of-mind take center stage, ensuring you never forget what matters most.

Ignition Interlock Device (Breathalyzer)

Smart Sipping, Responsible Driving!

- State-of-the-art technology prevents vehicle from starting if alcohol levels are unsafe.
- Ideal for license reinstatement after a conviction - We are licensed by The State of New Jersey.
- Proactive approach to prevent intoxicated individuals from driving your vehicle.

Drive responsibly by installing an Ignition Interlock Device. Also known as a Breathalyzer, this cutting-edge technology ensures the safety of both the driver and others on the road. Whether you require it for license reinstatement following a conviction, or you wish to proactively prevent others from driving your car under the influence, our licensed installation services have you covered.

Dash Camera

Record Your Journey, Secure Your Drive!

- Provides evidence in case of accidents or disputes.
- Can be used to improve teen driving behavior.
- Automatically records road incidents and other information.

Lights, camera, drive! Our dash camera is your silent guardian, recording every moment to safeguard you from false accusations. In the event of any dispute, rely on a dash camera as irrefutable evidence to prove your innocence.

24 Hour Surveillance Cameras

Silent Watchguard

- Enhances security by recording all movements and incidents even when the car is off.
- Assists in identifying and catching would-be thieves and criminals.
- Offers peace of mind with continuous surveillance.

Transform your car into a discreet cutting-edge surveillance system, helping safeguard the neighborhood and your home. A strategically placed camera becomes your watchful eye, providing valuable evidence and deterring potential crimes by recording every detail.

Radar Detector/ Laser Jammer

Ticket-Free Zone

- Greatly reduces the risk of accidental speeding tickets.
- Alerts drivers to potential speed traps, improving awareness.
- Helps drivers maintain legal speeds, avoiding tickets or fines.

Stay one step ahead of police by blocking police laser and detecting radar from up to a mile away. Always obey speed limits - but drive confidently, with the ultimate radar shield technology.

Keypad Start Inhibit

Access denied!

- Prevents unauthorized use of the vehicle.
- Adds an extra layer of vehicle security against theft
- Allows the driver to store their car key in the vehicle.

Your car, your rules! Our Keypad Start-Inhibit puts you in control over who drives and when. Guard your car against unauthorized access, and take back control!

Car Alarm

"Intruder-Proof" Your Car

- Deters theft and prevents unauthorized access to the vehicle.
- Alerts nearby individuals to potential threats.
- Provides added security and peace of mind to vehicle owners.

Ever wake up in the morning, only to realize you left your valuable items in the car overnight? The fear of theft is real, and so is the anxiety it brings. A car alarm system acts as an invisible shield, locking your doors for you and standing guard to scare away any intruders. Whether it's jewelry, electronics, or any valuable item inadvertently left behind, a car alarm keeps them safe.

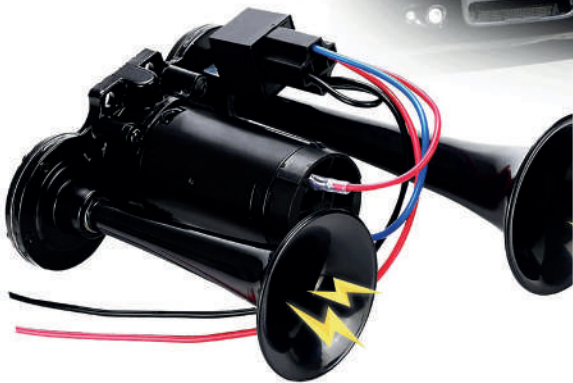

360 Degree Camera View

Birds Eye View

- Greatly minimizes the chance of an accident when maneuvering a large vehicle.
- Simplifies parking in tight spaces or crowded areas.
- Helps relieve the discomfort some feel when driving a large vehicle.

Master the art of maneuvering in crowded spaces with our cutting-edge 360-degree camera system that provides a bird's-eye view of your surroundings. Turn every challenging parking lot or narrow street into a stress-free experience, allowing you to navigate your car effortlessly while avoiding potential accidents. Gain an aerial perspective and turn every challenging parking lot into a stress-free experience.

Air Horn

Wake Up The Road!

- Enhances safety by easily alerting other drivers when necessary.
- Offers a unique and attention-grabbing feature.
- Attracts the attention of other drivers, in potentially dangerous driving scenarios.

Cut through the traffic and noise with an air horn. Make your presence unmistakably known on the road. An air horn goes beyond the ordinary, ensuring that you're heard loud and clear enhancing the safety for yourself and other drivers.

Heads Up Speed Display on Windshield

Eyes Straight Ahead! Drive Smarter, Drive Safer!

- Promotes safer driving by allowing drivers to monitor speed without glancing away.
- Adds a Hi-Tech look to the vehicle.
- Reduces the likelihood of getting a speeding ticket.

Elevate your journey with the same cutting-edge technology used in military jets. Keep your eyes on the road while staying informed about your speed and more. No more glancing down – just smart, safe, and informed driving.

Taplock Vehicle Entry

Tap to Enter

- Prevents one from ever getting locked out of a vehicle.
- Allows those who are authorized to open the car door without a key.
- Great conversation piece.

Say farewell to lockouts and welcome innovation with our revolutionary Taplock system. Knock a secret code on your windshield, and voila – access granted! No more problem forgetting your keys. It's not just access; it's a conversation starter and a cool solution for those moments when your keys are out of reach. Unlock with style, unlock with a simple rap!

Trailer Hitch

Hit the Road with a Hitch

- Allows one to effortlessly transport multiple bikes for family outings.
- Enables the vehicle to tow trailers and other equipment.
- Enables the vehicle to be used to pull other vehicles when necessary.

Whether it's accommodating family bike rides or transporting larger items for country getaways, this versatile companion transforms your van or SUV, making it ready for any adventure. Now Hitch up and go!

Added Minivan Jump Seats

Added Seating, Added Comfort!

- Converting a 7-passenger van into an 8 or 9 passenger vehicle.
- Increases seating capacity for larger families.
- Maximizes the space utilization in a minivan or SUV.
- Offers flexibility for various passenger configurations.

Escape the need for a new vehicle with our added jump seats, offering a comfortable and practical solution for additional passengers. Whether it's adapting to a growing family, car-pool or an upcoming road trip, our extra seating provides the flexibility you need without the hassle of a complete vehicle upgrade. Adding a jump seat is a smart way to enhance your vehicle's capacity and easily adapt to your changing needs!

Remote Battery Change

Revive Your Clicker!

- Removes the annoying below battery alert on your dashboard.
- Eases worries about the car not starting when you need it to.
- Restores the remote to full functionality.

Say goodbye to annoying "low remote battery" alerts, with our quick and easy remote-battery change service. Restore the convenience you're used to and bid farewell to those annoying dashboard alerts. Let your trusty car remote shine with a new battery, bringing life back to every click.

Power Inverter Installation

Power It All!

- Enables the use of AC-powered devices while on the go.
- Useful for charging laptops, running small appliances, etc.
- Larger inverters allow the use of power tools.

Enjoy the convenience of plugging in devices like printers, power tool chargers, laptops, and more—anywhere you go. Stay connected and powered up, making your car or truck a versatile and efficient mobile workspace.

PA System

Be Heard!

- Eliminates the need for the driver to turn their head while speaking to rear passengers.
- Eliminates the need for the driver to shout while addressing rear passengers.

No more shouting across the seats! Speak loud and drive safe with a PA system that turns your car into a mobile conversation hub. Communication simplified, journeys amplified!

“We’ll be making a stop in 15 minutes”

Roof Rack

Efficient Travel Starts on the Roof

- Allows for the use of a roof-top carrier, increasing luggage space.
- Allows for the transport of bulky items that don't fit inside the vehicle.
- Adds versatility to the vehicle for various needs.

Tired of packing dilemmas - what to take and what not to take? A roof rack ensures you bring everything you need on extended trips without compromising space for passengers and luggage. Practicality meets convenience – make your journey worry-free with our reliable roof rack.

Custom Phone Mounts

A Sweet Spot for your Phone!

- Easy access to phone functions, navigation, and hands-free communication while driving.
- Increases safety by keeping the phone secure, reducing distractions for the driver.
- Esthetics: Tailored to blend seamlessly with the vehicle's interior.

Gave up on useless phone mounts that don't work? Our mounts are professionally installed on your car's dashboard in just the right spot, providing a secure and easily accessible location for your device. No more wasted money, experimenting with different mounts that end up rolling around on the floor of your car – invest wisely for a safer, frustration-free drive.

Touch Screen Repair

End Touchscreen Frustration!

- Restores full functionality and usability of vehicle features.
- Improves user experience and convenience while driving.
- Maintains the value of the vehicle.

Let us help you rediscover the joy of seamlessly interacting with your car's touch screen, where every tap of your finger effortlessly brings you to the screen you're supposed to be on!

Rewire Power Socket

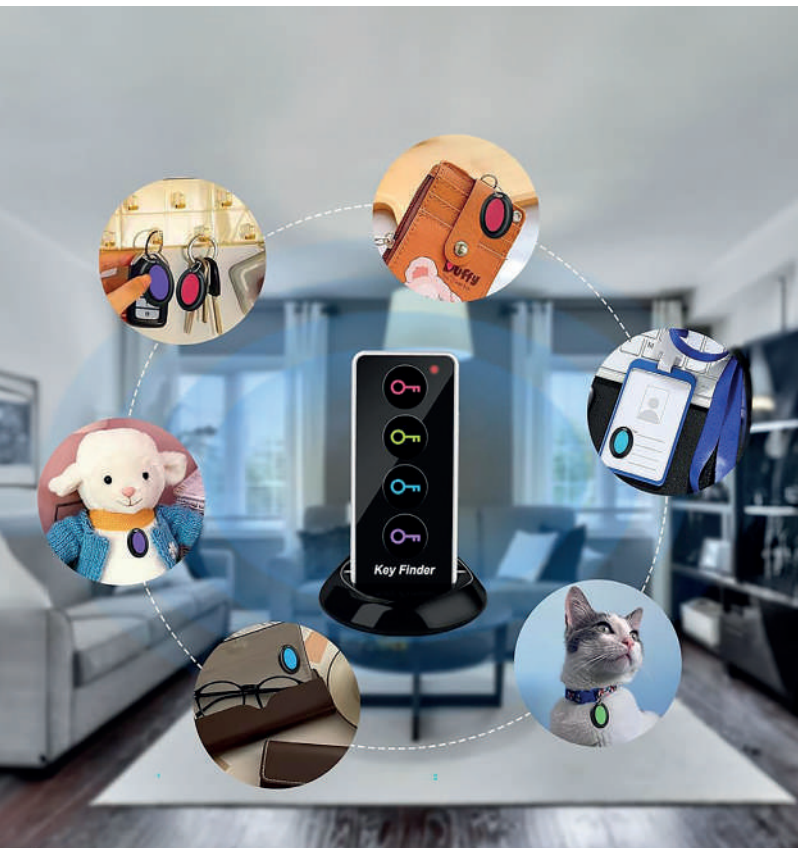

Charge on - Even When Off!

- Allows for charging devices even when the vehicle is turned off.
- Provides continuous power to devices that may otherwise lose memory.
- Increases convenience by allowing the use of devices even with the vehicle off.

Power, when and where you need it! By rewiring your car's power socket, charging devices becomes a 24/7 affair. No more dead phone batteries just because the car was off.

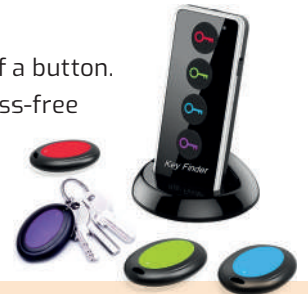

Wireless Car-Key Finder

Keys Found Fast!

- Locate keys with the push of a button.
- Promotes an organized stress-free lifestyle.
- Compact and easy to use.

Introducing the Wireless key Finder from CSO Radio - the perfect answer to "Did anyone see my keys?" Keep the wireless remote in a convenient spot like your kitchen drawer, and when the inevitable moment strikes, (usually when in a rush), simply push a button to make the attached tag on your keys emit a helpful beep. Stay organized, save time, and bid farewell to the stress of lost keys.

Electrical Troubleshooting

We Love Mysteries!

- Pinpointed Electrical Diagnostics using sophisticated technology.
- Parasitic Draw and Electrical Shorts are our specialty!
- Out of the box solutions that can save literally hundreds of dollars.

Over the past two decades CSO Radio has become a trusted name for troubleshooting and solving many challenging electrical problems. Our skilled technicians have been able to unravel many intricate electrical issues that have left mechanics scratching their heads. Although we can't promise to solve every issue, we say - bring it on!

TruckGuard 360° Surveillance System

Eyes Everywhere!

- Covers all sides of the truck including the cargo area.
- Adds safety by providing a complete view, eliminating blind spots.
- Protects a company from false accusations.
- Allows for remote viewing of recorded footage.

Equip your trucks with a TruckGuard 360° Surveillance System and take control of every possible incident. From comprehensive coverage to remote access, this advanced DVR system ensures you have a watchful eye on every aspect of your truck's day-to-day operations. Gain peace of mind with TruckGuard.

Strobe Lighting

High Visibility When You Need It. Stay Seen and Stay Safe!

- Helps navigate other vehicles around a stopped vehicle.
- Aids emergency vehicles in navigating traffic.
- Enhances visibility and safety during critical operations.

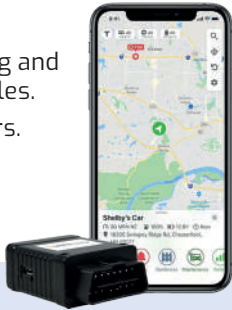

Our installed strobe lights turn your vehicle into a beacon of visibility, ensuring that if you ever need to stop on the road, others can easily spot and navigate around you. Enhance your safety with our powerful strobe systems – because being visible means being secure on the road.

GPS Tracking No Contract!

Keep Your Drivers on The Right Track!

- Optimizes fleet operations and reduces fuel consumption.
- Helps reduce wasted time.
- Enables efficient route planning and management of multiple vehicles.
- Enhances security of the drivers.

Turn your fleet into the reliable system it was meant to be. A properly working GPS System helps you maximize productivity, reduce fuel consumption, and eliminate down time, transforming your vehicles into a coordinated performance.

LIVE TRACKING

Smart AI Safety Cameras

Predict Accidents Before They Happen!

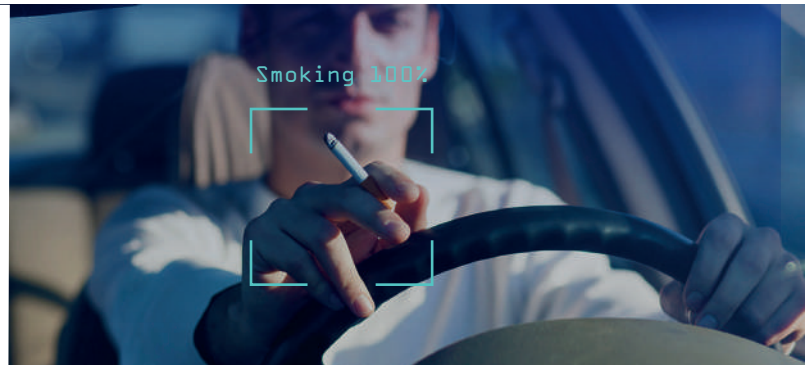

- Advanced AI tech, detects even subtle unsafe driving behaviors.
- Videos are stored to the cloud to be reviewed at your convenience.
- Doubles as a dependable dash camera system.

Distracted driving today poses a real threat on roads everywhere. Not only does such behavior compromise safety, but it also creates a substantial financial risk for companies whose drivers are at fault. Our AI driven ADAS camera is able to accurately detect all types of unsafe driving behavior so corrective action can be taken before an accident happens. The system is able to accurately detect, cellphone use, texting, drowsiness, smoking and more. For many fleets investing in an advanced ADAS system doesn't cost...it pays!

Live Dash Cameras for Fleets

Productivity unleashed

- Prevent accidents by monitoring and correcting driver behavior.
- Provides critical evidence in accidents or disputes.
- Enhances fleet management by allowing remote viewing.
- Saves events and important video footage to the Cloud.
- Provides valuable insights into operations.

Transform your fleet management with Live Dash Cameras! Monitoring your drivers in real-time ensures increased productivity and less downtime. Gain the ability to swiftly and easily assess incidents, determining fault in case of accidents. Plus, enjoy the seamless integration of GPS Tracking for comprehensive fleet monitoring. Elevate control and operational efficiency with this all-in-one solution.

Mobile Radios for Fleets

Communication at Your Fingertips

- Clear communication from dispatch to driver at all times without relying on a cell phone.
- Increases safety by allowing the driver to communicate without taking their eyes off the road.
- Allows communication between multiple drivers.
- Improves coordination and response times for fleet operations.

Say goodbye to reliance on cellphones! An installed Mobile Radio System keeps your drivers seamlessly connected with dispatchers bridging the gap between drivers and office personnel. Enabling drivers to hear and talk to each other, fosters teamwork and cohesion among drivers ensuring everyone stays on the same page. Upgrade to mobile radios and revolutionize how your fleet stays connected and coordinated.

Add a Third Crew Member

More Seats, More Efficiency

- Expand capacity instantly with an extra jump seat, saving on fuel and operational costs.
- Enhance job efficiency by adding another crew member on-site.
- Save money by avoiding the cost of purchasing an extra company vehicle

Our innovative jump seats are designed to seamlessly integrate into your existing fleet. These seats provide a practical solution for expanding your team's capabilities without the need for extra vehicles. Eliminate the hassle of sending multiple vehicles to job sites to accommodate larger crews. Experience cost savings, increased job efficiency, and the flexibility to adapt to varying job requirements.

Commercial Grade Back Up Camera

Company Excellence Starts in Reverse

- Helps truck drivers smoothly back up to loading docks.
- Reduces the risk of accidents while maneuvering.
- Makes it simpler to park and unload cargo.
- Especially useful for larger trucks with harder visibility.

Upgrade your fleet's efficiency with commercial grade Back-Up Cameras. Whether your trucks are already equipped and only need minor adjustments or have none at all, backup cameras are a smart investment that pays off in savings, peace of mind, and enhanced productivity. Engineered for rugged applications and offering night vision, these cameras offer an optimal view for swift loading dock maneuvers and are designed to minimize accidents, eliminate frustration and boost overall efficiency.

Solar Powered GPS Tracker

Keep Your Equipment in the Spotlight, Anytime, Anywhere!

- Eliminate misplaced construction equipment, such as forks, shovels, and flat trailers.
- Ideal for equipment without a power source.
- Perfect for construction sites, storage containers, and dry van trailers constantly on the move.

Stop losing expensive equipment! The Solar Tracker is a game-changer for protecting any equipment that doesn't have its own power source - construction forks, trailers, storage containers and more. Stay organized effortlessly by managing all your assets on a map and don't let the headache of lost equipment weigh you down ever again!

Custom Fleet Solutions

Your Fleets Secret Weapon!

- Tailored solutions for unique challenges specific to your fleet.
- Holder of multiple US Patents and trusted partner with the US Dept. of Defense.
- Ability to craft innovative solutions using our deep knowledge of vehicle technology.

CSO Radio leads the way in providing custom solutions. We understand that sometimes off-the-shelf solutions don't fit the bill, and we specialize in tailoring solutions to address specific aggravations and problems. We have been trusted by prestigious clients such as the US Department of Defense and the Philadelphia Fire Department and hold multiple US Patents. Let us leverage our deep knowledge of available vehicle technology for you!
